Document ID: 26H-ECL-GA-RESP1B

Meeting: 30 September 2026, 12:15, Festsalen, NMBU

Applies from: the New Bylaws' entry into force, on signature of the Meeting Protocol (26H-ECL-GA-PROT1). While the Old Bylaws govern, 26H-ECL-GA-RESP1A is used.

Governing Bylaws: proposed New Bylaws §14 (Mandate, delegation and Signature Right), §4.3 no. 7–8 (Nearest Leader, Responsibility Role), §5.1 (Core Member).

1. Core principle

Signing on the Association's behalf is itself a responsibility, not just an administrative permission. Signature Right is assigned through this same contract, alongside any other genuine leadership responsibility: Responsibility, delegation, Authority and Signature Right are one relationship.

2. Parties

From	The person currently holding the responsibility (or, where the General Assembly itself is the granting party, see §8 below).
To	The person receiving the responsibility.

Signed by both parties, then logged by the Board (Board Record, 26H-ECL-GA-RESP2). **Effective automatically on signature by both parties:** the Board's role is to record the transfer, not approve it. The Board keeps its ordinary powers under §5.7 and §14.5 (e.g. to change who holds an office, or to suspend a delegated Mandate by 2/3 vote) independently of this contract.

3. Responsibility direction

Responsibility moves only **downward** (From a leader To someone reporting to them, directly or via the chain in proposed New Bylaws §4.3 no. 7), never sideways between peers. It moves upward only through Escalation (§6), when the responsible superior is unavailable – not as an ordinary transfer.

4. Responsibility being transferred

Scope	
Specific responsibilities	
Expected outcomes	
Delivery obligation (leveringsplikt)	The recipient is obliged to deliver within the set time frame (proposed New Bylaws §5.6.2).
Reporting obligation (meldeplikt)	If the recipient cannot carry out a task taken on, they shall notify their Nearest Leader without undue delay (proposed New Bylaws §5.6.3).
Instance-specific upward obligations	Any additional reporting or approval steps specific to this responsibility (e.g. financial limits, safety sign-off) – list here.
Signature Right included?	Yes ☐ No ☐ If yes: within what limits? _____ (proposed New Bylaws §14.9)

5. Obligations of From

The recipient (To) can expect from the person giving responsibility (From):

1. Clear intent: what is being handed over, and why.
2. Real delegated Authority, not just a task – the standing to make the decisions the responsibility requires.
3. The resources and access the responsibility requires.
4. Availability for questions and support.
5. Support where the recipient's own team falls short.
6. Honest feedback on performance.

6. Escalation

If **From** is unavailable, escalation goes to From's **Nearest Leader (nærmeste leder)**, per proposed New Bylaws §4.3 no. 7 (member → Team Lead → Project Lead → responsible Board member). No fixed Deputy Chair or CTO rule applies here, except where the CTO is in fact the Nearest Leader in that chain, or is acting as Deputy Chair for the CEO under §12.3.

7. Core Membership

Receiving a genuine leadership responsibility through this contract makes the recipient a **Core Member (kjernemedlem)** (proposed New Bylaws §5.1 no. 2); being asked to complete a task does not. This contract is used only for a genuine, standing leadership responsibility (e.g. Project Lead, Team Lead, or delegated Signature Right), never for a one-off task.

8. General Assembly → CEO

Where the General Assembly itself is the granting party (e.g. the Mandate the newly elected CEO holds under §14.1), the contract reads:

"The General Assembly, per the protocol of 30 September 2026, 26H-ECL-GA-PROT1, gives _____ (CEO) the responsibility of _____."

The CEO signs as **To**. The Protocol Signers do not personally become **From**: the responsibility originates from the General Assembly as a whole, and the Protocol ID is the record of that origin.

9. Board record

Once signed, the Board logs this contract using the Board Record, 26H-ECL-GA-RESP2. This contract and the Board Record cross-reference each other by Document ID.
